# CTE State Plan Convening (New Plan)

- October 12<sup>th</sup> at College of the Canyons
- The California Community Colleges Chancellor's Office and the California Department of Education invite you to join them for an inperson convening focused on the new California State Plan for Career and Technical Education (CTE).

#### **About the California State Plan for CTE**

• The California State Plan for CTE is a strategic plan and a call to action that sets forth a student-centered vision of equity and excellence for the future of high-quality CTE in California. It provides a framework for alignment across K-12 and higher education in order to better support students across the state while building a skilled workforce for the future.

English Language Learners – Healthcare Pathways funding

Oxnard High School Students testing the equipment

### Al Workgroup

- Developing a webinar in collaboration with other regions to address the impacts on AI on curriculum and instruction
- Date and time TBD

Executive Order – New Master Plan for Career Education signed August 31, 2023

New plan due by October 1, 2024

#### **What This Means for Students**

#### California's Master Plan on Career Education Will:

#### **✓** BREAK DOWN SILOS

The state will identify opportunities for alignment and coordination across sectors — both public and private — to ensure more career and skill-building opportunities for students and workers.

#### **✓** STRENGTHEN CAREER PATHWAYS

All students, beginning at the start of high school, will be encouraged to discover and explore good-paying, fulfilling and long-lasting careers—including those that do and do not require college degrees—and be guided to pathways to those careers.

#### **✓** PRIORITIZE HANDS-ON LEARNING AND REAL-LIFE SKILLS

Students and workers will have multiple opportunities to "learn by doing," especially via paid earn-and-learn opportunities, and be trained in real-life skills that can be certified and reflected on academic records.

#### **✓** ADVANCE UNIVERSAL ACCESS AND AFFORDABILITY

California will reduce the costs of career training and education and simplify access to support — including financial aid, career guidance, and disability services — by streamlining confusing bureaucracies.
