## South Central Coast Community College Apprenticeship – Phase 1

- Analyzes apprenticeship data from DOL, DAS, and CCCCCO to examine the state of apprenticeship in the region and uncover data gaps.
- Four major findings:
  - › Apprenticeship data is often incomplete and/or inconsistent.
  - › Most apprenticeships are traditional and in the building trades.
  - › Demographics of apprentices mostly reflect demographics of construction occupations.
  - › There is a lack of metrics and outcomes for apprenticeship programs.
