4

VR EFFECTIVENESS IS INDISPUTABLE

SURGEONS TRAINED VIA VIRTUAL REALITY

6X FEWER ERRORS

IN VR, SOLDIERS' MISSIONS WERE

2.7X MORE SUCCESSFUL

90%

MEDIAN RECALL ACCURACY ON HEAD-MOUNTED VR DEVICE

Compared to desktop display's 78%. This is the difference between an "A" student and a "C" student.

STUDY SHOWS

85% OF PARTICIPANTS PREFER VR FOR LEARNING

The same study also shows that because of the deployment advantages of Virtual Reality (cost, scalability, ability to interate), it should be used as a primary means for training.
