  - 240 students/10 schools/18 MC CTE Programs

SCCRC: Regional Adult Education Bi-Annual Meeting

## **Career Preparation**

### **Internships Prepare Students for Careers**

Moorpark College (MC) continues to support, engage, and collaborate with Ventura County industry leaders by increasing the number of employer partnerships while decreasing equity gaps for disproportionately impacted students. Efforts targeting special population students to provide students with career services includes high school graduates, working adults, veterans, students with disabilities, and English as a Second Language (ESL) learners.

MC collaborated with the Ventura County Workforce Development Board to identify businesses that applied for Federal SBA loans and then leveraged the college's resources by supplying interns at local small businesses and start-ups in high-poverty areas to support employers struggling to survive during the pandemic.
