California Public-Sector Apprenticeship Hub

Partner with us to build paid, career-path programs in local government

Who we are

NextGen Policy (lead/fiscal) with the Institute for Local Government (ILG) and Clover Solutions Group (CSG). We help cities, counties, and public agencies stand up or expand Registered Apprenticeships (RAPs) and pre-apprenticeships in IT/Cybersecurity, Health & Human Services, K-12/School Nutrition, and HR/Accounting.

What partners get

• Hands-on technical assistance: standards development, DOL/DAS filings, RTI/curriculum alignment, cohort & mentor setup

• Recruitment & outreach support: materials, events, and pipelines with LEAs, CBOs, and unions

• Faculty/coach training and a library of TA resources (toolkits, templates)

• Employer incentives to jump-start implementation

• Lightweight data/reporting support so compliance doesn't slow you down

Who should partner

• Local governments & public agencies hiring in the focus occupations

• Sponsors/Unions/Associations hosting or expanding RAPs

• Community Colleges & K-12/LEAs aligning RTI and work-based learning

• CBOs/Workforce boards connecting priority populations to paid pathways

Equity commitment

We prioritize rural and underrepresented communities with inclusive recruitment, accessible RTI, and supportive services.
